Protecta FR Board

Protecta FR Acrylic

Installation Instructions

- Before installing Protecta® FR Board ensure that the surface of all service penetrations and surrounding construction is free from all loose contaminants, dust and grease.
- 2. The FR Board may be 50mm or 60mm with coated side facing outwards.
- 3. Cut the required boards to suit the aperture dimensions.
- The FR Board must oversail the aperture by 100mm and be bonded to the wall with a bead of Protecta[®] FR Acrylic. Fix with 100mm wood screws and penny washers at 300mm centres 50mm in from edge.
- All joints, gaps or imperfections in the installed seal must be filled with Protecta® FR Acrylic on both sides.
- Protecta[®] FR Board can be over-painted with most emulsion or alkyd (gloss) paints.
